

Create a simple cloud software application for product selling using any cloud service provider to demonstrate SaaS.

AIM:

To develop a cloud-based Product Selling System using Zoho Creator for managing product sales, billing, and discounts, and to demonstrate the Software as a Service (SaaS) cloud computing model.

ALGORITHM:

1. Log in to the Zoho Creator cloud platform using a valid account.
2. Create a new application named Product Selling System.
3. Design a form to store customer and product details.
4. Add fields such as Customer Name, Customer Phone, Product Name, Category, Quantity, Price, Total Amount, Order Date, Payment Method, Order Status, Discount (%), Discount Amount, and Final Bill.
5. Configure drop-down values for Product Name, Category, Payment Method, and Order Status.
6. Create a workflow to calculate the Total Amount based on Quantity and Price.
7. Apply discount rules according to the total purchase amount and calculate the Discount Amount and Final Bill automatically.
8. Update the Order Status automatically after successful order submission.
9. Create a report to display all product sales and billing details.
10. Test the application by entering sample data and verify that the bill and discount are calculated correctly.

IMPLEMENTATION:

```
1 input.Total_Amount = input.Quantity * input.Price;
2 if(input.Total_Amount >= 100000)
3 {
4     input.Discount = 20;
5 }
6 else if(input.Total_Amount >= 50000)
7 {
8     input.Discount = 15;
9 }
10 else if(input.Total_Amount >= 20000)
11 {
12     input.Discount = 10;
13 }
14 else if(input.Total_Amount >= 10000)
15 {
16     input.Discount = 5;
17 }
18 else
19 {
20     input.Discount = 0;
21 }
22 input.Discount_Amount = (input.Total_Amount * input.Discount) / 100;
23 input.Final_Bill = input.Total_Amount - input.Discount_Amount;
24 input.Order_Status = "Confirmed";
25 info "Order placed successfully. Final Bill = ₹" + input.Final_Bill;
26
```

OUTPUT:

PRODUCT SELLING SYSTEM

Product Selling System

Customer Name

Customer Phone

+91

81234 56789

Product Name

-Select-

Category

-Select-

REPORT:

	Order ID	Customer Name	Customer Phone	Product Name	Category	Quantity	Price	Total Amount	Order Date	Payment Method	Order Status	Discount (%)	Discount Amount	Final Bill
	2	RAMU	+917458964512	Mobile Phone	Electronics	2	₹ 6,00,000.00	₹ 12,00,000.00	06-Aug-2026 11:14:12	Debit Card	Confirmed	20	₹ 2,40,000.00	₹ 9,60,000.00
	1	Rahul Kumar	+919876543210	Laptop	Electronics	2	₹ 6,00,000.00	₹ 12,00,000.00	03-Aug-2026 13:09:56	UPI	Confirmed	20	₹ 2,40,000.00	₹ 9,60,000.00

RESULT:

The Product Selling System was successfully developed using Zoho Creator. The application automatically calculates the total amount, discount, and final bill, demonstrating the Software as a Service (SaaS) model through cloud-based access and data management.
